Place a glass of water on this image,
on your bedside, during the night.

The next morning, the water contains
the vibrational resonance: the V-book.

Sip some in the morning on every day
you'd like to implement the CWG insights
'on the fly' in your every day life.

It gives you support in *your* choice
to contribute to the well being for *all* involved
guiding you in shaping (your) life
from a paradigm of Oneness.

It keeps (in a closed bottle) for a week in the fridge.
Add 20% vodka and it keeps for a month.

Enjoy your day!
